

## Assignment 02

M Vishnu Sankar  
18B030013

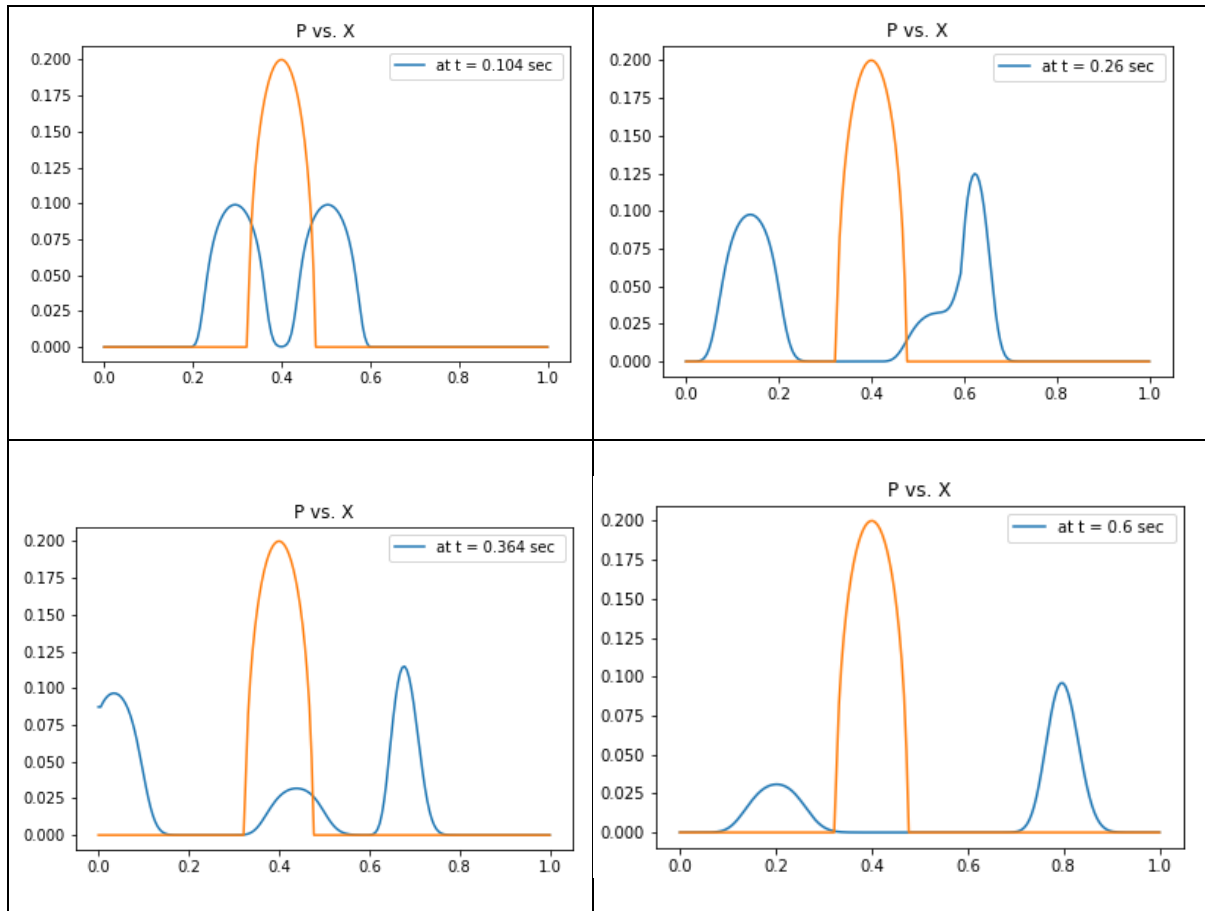

### Flux Difference Splitting: Order 1

X axis is location and Y is pressure

#### Problem 1

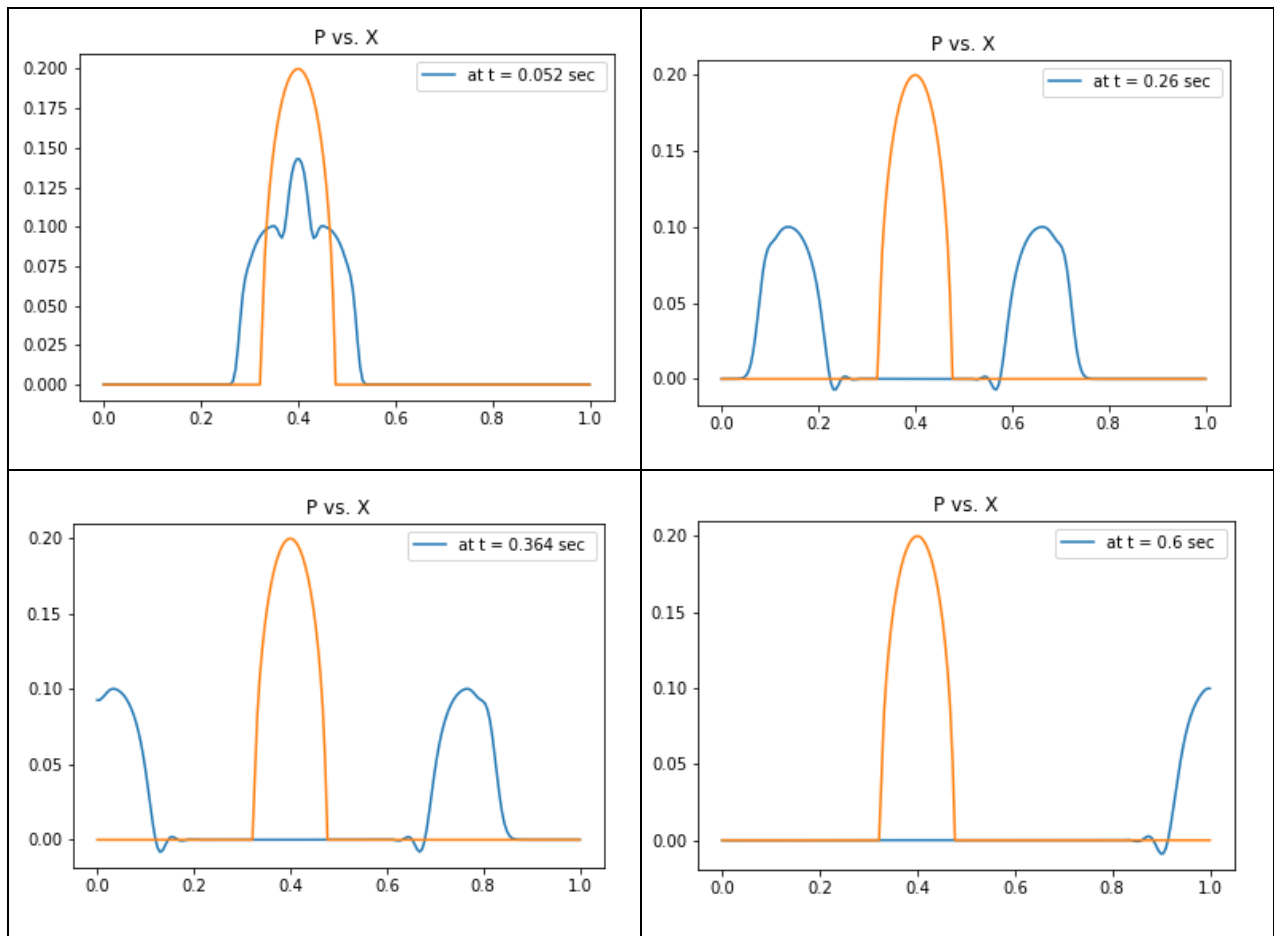

## Problem 2

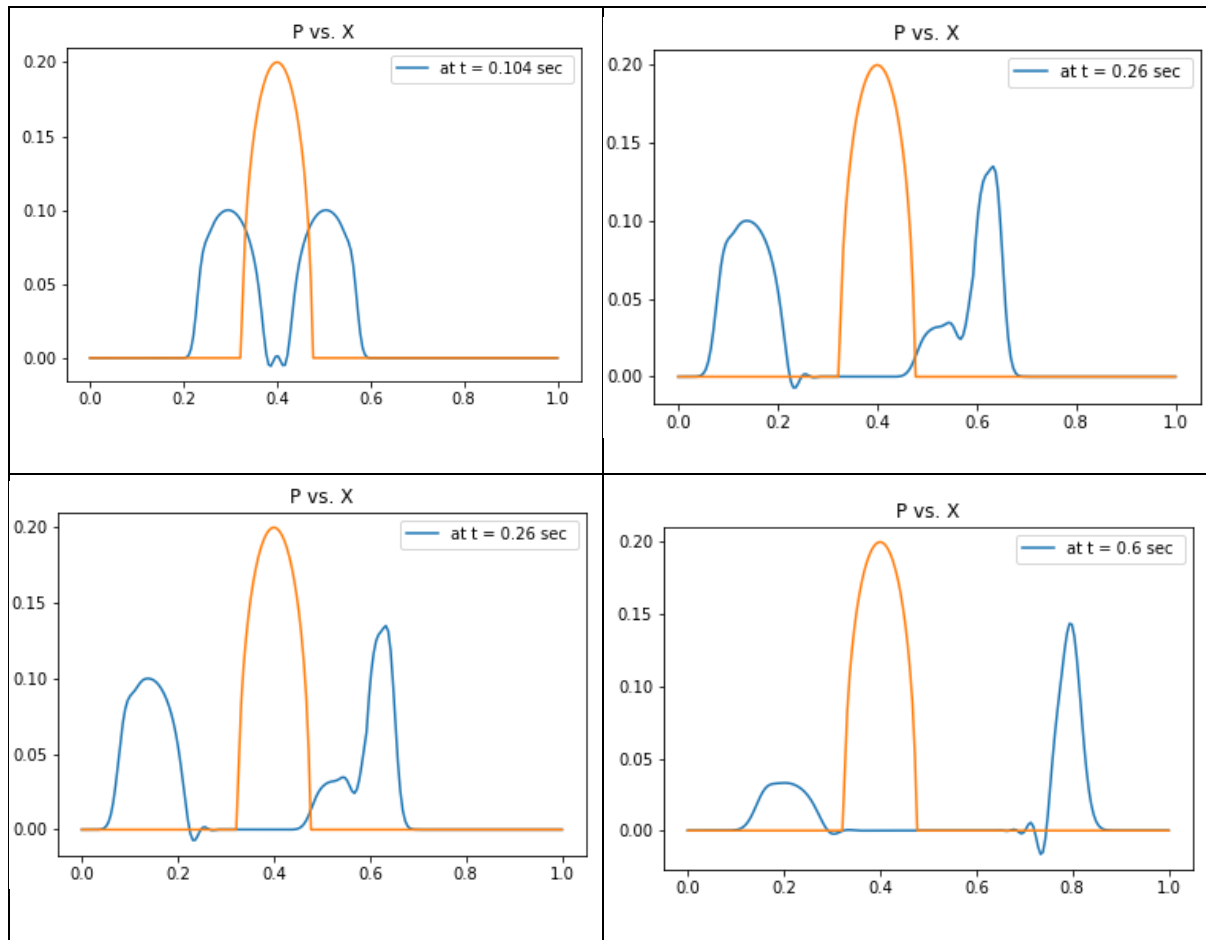

## Flux Difference Splitting: Order 2

$X$  axis is location and  $Y$  is pressure

### Problem 1

## Problem 2

## Observation

The second order scheme has numerical oscillation error and that seems to grow with time.
